CAREER COACH

Unlock Your Potential : Break Free
from Career Plateaus and Enjoy
Good Work

My Journey

I started my career as a corporate lawyer, and it was a rewarding experience. However, Law School and early career exposed me to the need for professionals to have access to information and networks to be able to enjoy fulfilling careers. I made choices that would have been different if I had access to mentorship, coaching, and the right information.

I eventually gained the courage and clarity to bring my Law School dream to life and after years of legal practice, Legally Engaged was born.

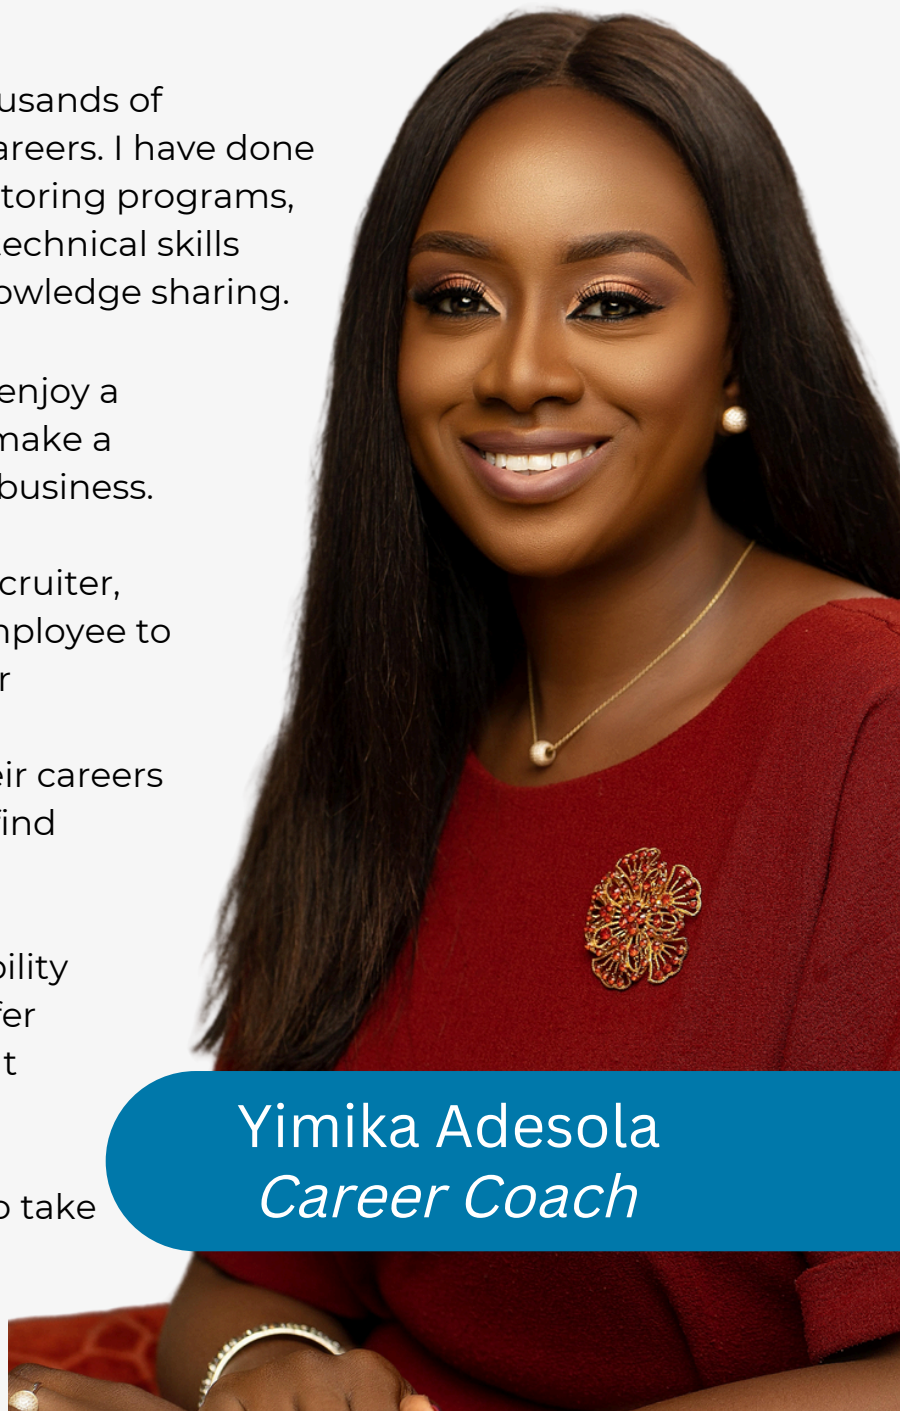

With LE, I have empowered thousands of professionals to thrive in their careers. I have done this through coaching and mentoring programs, one-on-one coaching, soft and technical skills training, job placement, and knowledge sharing.

After a rocky start, I was able to enjoy a great legal career, successfully make a career switch and build a great business.

I now use my experience as a recruiter, trainer, mentor and a former employee to offer help and guidance to other professionals. I specifically help individuals who feel stuck in their careers to break free from that rut and find satisfaction in their work.

My supernatural power is the ability to cut through the noise and offer clarity, wisdom and strategy that delivers results.

Thank you for considering me to take this journey with you!

Career Coach

Is This You?

Feel that your career isn't moving forward the way you'd hoped.

Would like to command more value; in your organisation and wider professional community.

Wish you had the courage **and** clarity to pursue the career or business you really want.

Desire mentorship and guidance to help navigate career decisions and advancement.

Need help defining career goals, or carving out an actionable career plan.

Feel trapped in an unrewarding, unchallenging or toxic work environment.

Generally feel disconnected, burnout or unfulfilled with work.

Have achieved some success and want to keep the momentum going

Investment Options
